

出现这个就是要求你验证了，一般来说点支付点太快或反复换链接会导致这个问题。

解决方法：

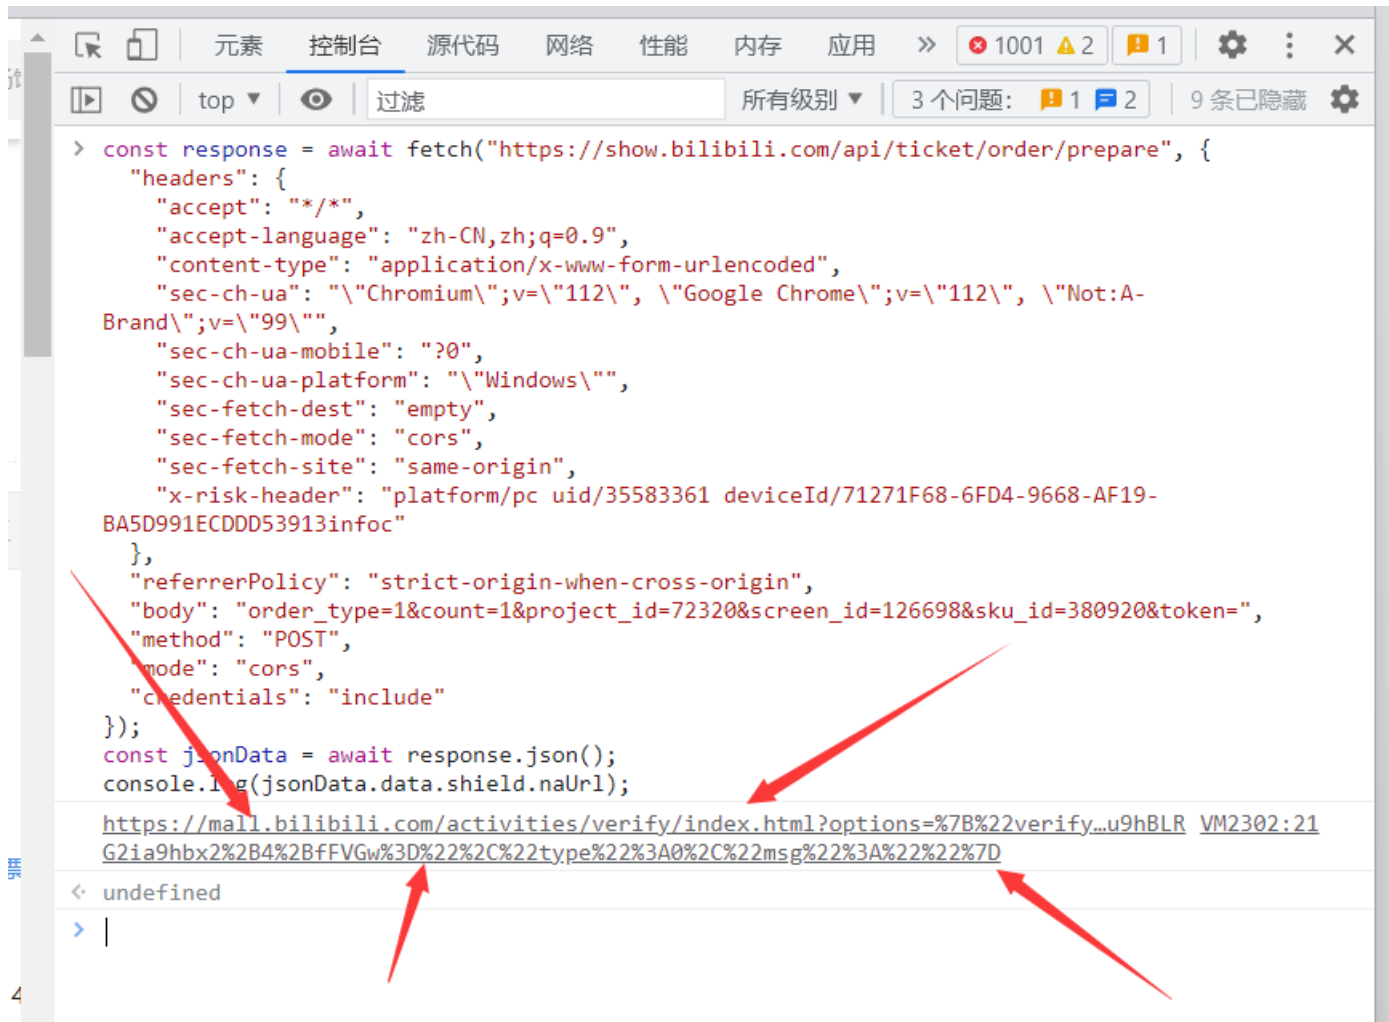

打开一个新的窗口，打开购票页面 <https://show.bilibili.com/platform/detail.html?id=72320>，按键盘第一排的 F12 按键，然后点图中的控制台

然后把这段代码复制进去

```
const response = await fetch("https://show.bilibili.com/api/ticket/order/prepare", {
  "headers": {
    "accept": "*/*",
    "accept-language": "zh-CN,zh;q=0.9",
    "content-type": "application/x-www-form-urlencoded",
    "sec-ch-ua": "\"Chromium\";v=\"112\", \"Google Chrome\";v=\"112\", \"Not:A-Brand\";v=\"99\"",
    "sec-ch-ua-mobile": "?0",
    "sec-ch-ua-platform": "\"Windows\"",
    "sec-fetch-dest": "empty",
    "sec-fetch-mode": "cors",
    "sec-fetch-site": "same-origin",
    "x-risk-header": "platform/pc uid/35583361 deviceId/71271F68-6FD4-9668-AF19-BA5D991ECDDD53913infoc"
  },
  "referrerPolicy": "strict-origin-when-cross-origin",
  "body": "order_type=1&count=1&project_id=72320&screen_id=126698&sku_id=380920&token=",
  "method": "POST",
  "mode": "cors",
  "credentials": "include"
});
const jsonData = await response.json();
console.log(jsonData.data.shield.naUrl);
```

然后回车，会出现一个链接，打开这个链接

然后自己动手拉一下就行~你完全可以一个窗口打开下单页，另一个打开购票页，提前粘贴代码，一旦购票界面提示超时就回车然后动手验证，这样就可以继续用群里的链接了
